

Marin County COVID-19 Safety - Decision Tree for Schools - Stay at Home

(Effective 12/07/2020: Subject to Change - Updated 12/04/2020)

***If a student / staff / household member has any of the following symptoms: cough, shortness of breath / difficulty breathing, or loss of smell or taste, fever $\geq 100.4^{\circ}$ F and/or chills, headache, sore throat, nausea or vomiting, diarrhea

***If a staff / household member (over 18 years old) has **any** of the following symptoms: body ache, fatigue, congestion / runny nose

*****Anyone** who has engaged in a high-risk activity (e.g., any mixing of households, non-essential travel) should monitor for symptoms for 14 days; if any symptoms develop, they should self-isolate immediately. They must quarantine for 10 days after engaging in a high-risk activity. Quarantine may be discontinued after 7 days if they test negative on Day 5 or later and remain asymptomatic.

***If a student (**under 18 years old**) has **any** of the following symptoms: body ache, fatigue, congestion / runny nose **If a school nurse suspects COVID-19, they may require a healthcare provider evaluation.*

Siblings and household contacts need to stay home (or will be sent home) until negative COVID-19 test confirmed. **Essential workers do not need to stay at home but must monitor for symptoms*

Siblings & household contacts do not need to stay home

MUST Schedule COVID-19 test ("**Test or 10**") or healthcare provider evaluation

COVID-19 NEGATIVE or alternate diagnosis (e.g., migraine, strep throat)

Return to school after symptoms improved **AND** fever-free for > 24 hours w/o fever reducing medications **OR** with copy of negative test result or communication from healthcare provider that student / staff may return to school

COVID-19 POSITIVE or not tested

ISOLATE: Stay at home for 10 days from time symptoms started (*or date of positive test*) until asymptomatic **AND** fever-free for > 24 hours w/o fever reducing meds

Siblings & household contacts must stay home; schedule COVID-19 test 5 days *after* last contact; and follow [Updated Quarantine Orders](#)

COVID-19 POSITIVE or not tested

Follow [Updated Quarantine Orders](#): Exposed person(s) must monitor for symptoms for 14 days; if any symptoms develop, they should self-isolate immediately. Exposed person(s) must quarantine for 10 days after their last contact with a person who has COVID-19. Quarantine may be discontinued after 7 days if an exposed person tests negative on Day 5 or later and remains asymptomatic.

Exposure to COVID-19 positive person: Spent 15 minutes or more within 6 feet of an infected person (with or without mask) or lives in the same household with someone who tested positive for COVID-19

Siblings and household contacts do not need to stay home *if the exposed student can quarantine from household members*

Exposed person should schedule COVID-19 test 5 days *after* last contact with positive case or when student / staff develops symptoms
